From THURSDAY *May* 14, to THURSDAY *May* 21, 1741.

MUSCOW, January 20.

THAMAS Kouli Kan having reſolved to puniſh the Usbeck Tartars, who for many Years paſt had oppos'd his Deſigns, and excited the Perſians to revolt, aſſembled laſt September an Army of 40,000 Men, great part of which conſiſted of Horſe, and march'd directly towards Great Bucharia, a Country inhabited by the Tartars. They being inform'd of the Approach of the Perſians, march'd forth to meet and fight them and after a moſt bloody Engagement, the Tartars, tho' double the Number of their Enemies, were routed, and a great Number of them in their Flight drown'd in the River Amu. The Perſians, in order to take Advantage of the Confuſion which this Defeat had occaſioned throughout the whole Country, march'd directly towards Buchara, the Capital of the Great Bucharia, the Kan of which City having got together in great Hurry the beſt and moſt Troops he could, poſted himſelf at ſome Diſtance in order to meet the Perſians, who a ſecond time defeated them, kill'd a great Number of them, and took many Priſoners, with a very conſiderable Booty; after which the Perſians took Bucharia by Storm, a Place well fortified, and a Caſtle, where reſides the Kan of Bucharia. They were Three Days in pillaging the City, and committed great Slaughter. They ſet Fire to the Town in many Parts, which reduced the Churches and Baths to Aſhes. The Booty taken was of prodigious Value. After a few Days Reſt, the Perſians march'd to ſubdue the remaining Part of the Country of Great Bucharia, which we are inform'd has entirely ſubmitted to Thamas Kouli Kan, whoſe Power by this Conqueſt will be greatly encreas'd This Country, which was the antient Sogdiana and the Bactriana, is ſituated between Perſia, the Territories of the Great Mogul, and the Calmucks tributary to Ruſſia. It is a Country the moſt inhabited and the beſt cultivated of any in Great Tartary, moſt extraordinary fruitful, and the Hills abounding with rich Mines; in length 150 German Leagues, and 140 wide.

Madrid, January 10. The Orders for embarking the Troops deſigned to be tranſported into Italy, are not yet given. 'Tis ſaid there is a Negociation on Foot, on the Succeſs of which depends the projected Expedition; and that will not be known till after the Return of the Couriers diſpatch'd to ſeveral Courts. In the mean time the Preparations for that Expedition are carrying on with all poſſible Vigour: The Troops are in full March to their Place of Rendezvous, and great Quantities of Proviſions of all ſorts, and Ammunition, &c. are getting together.

Peterſburgh, February 1. Count d'Oſterman has declar'd to the Marquis de Botta, that the Renewal of the defenſive Treaty of Alliance between this Court and that of Pruſſia, does not in the leaſt tend to prejudice that which ſubſiſts between Ruſſia and the Houſe of Auſtria. Some Diſpatches of the greateſt Importance are lately arriv'd from M. Beſtuchef, our Miniſter at Stockholm; ſince which it has been reſolv'd to cauſe a Body of freſh Troops to march towards the Frontiers of Finland.

Letters of the 9th ult. from Leghorn ſay, that the King of Spain has not only demanded the Port of Spezia of the Republick of Genoa for the Uſe of his Ships, but Savaage to make a Place of Arms; and that the King of Sardinia has declar'd, that if this be granted, he will ſeize Monaco. They add, theſe Demands have ſo embarraſs'd the State of Genoa that they have order'd Prayers for three Days at St Lawrence's Church, to implore God's Bleſſing and Direction in their preſent Diſtreſs. Mean time we are inform'd that France hearing of theſe Demands, has ſignify'd to the Court of Spain, that this was not a fit Juncture to carry the War into Italy, and that they will gain more by Treaties than by Arms.

A Letter of the 17th ult. O S. from Vienna ſays, they have a Report there, that Ruſſia has enter'd into an Alliance with Sweden, by which the latter is to yield the Provinces of Ingria and Livonia for ever to Ruſſia, which, upon that Condition, is to ſend 45,000 Men to join 30,000 Swedes, for the Recovery of Swediſh Pomerania, which the late King of Pruſſia invaded when Charles XII. of Sweden, was retir'd to Turkey.

And Letters of the 20th directly from Stockholm ſay, the King has order'd Recruits to be rais'd with all Haſte on the Frontiers of Pomerania; that his Captains have Orders to add 25 Men to every Company by the End of next Month; and that all the Talk at Stockholm is, that the Preparations which are making in that Kingdom, both by Land and Sea, are to retake Pomerania from Pruſſia.

Advices from Vienna of the 24th mention, that General Palfi is to march at the Head of 15,000 Hungarians thro' that Country into the Dominions of the King of Pruſſia. And thoſe of the 26th from Berlin ſay, that Preparations are making for the King's Return to Sileſia by the End of this Month, and that as ſoon as their River is thaw'd, Boats are to be ſent thither with 30 Cannon of 24 Pounders, 12 Mortars of 50 Pounders, and 4 others of 75 each.
